

## KALETRA

# Tse Wing Lam 7S Wong Tai Wa 7S

### KALETRA

- An HIV medication
- Protease inhibitors
- Prevents cells infected by HIV
- Reduces the amount of virus

#### LEAD COMPOUND DISCOVERY

- Ritonavir
- Trade name: Norvir (Abbott Laboratories)
- Originally developed as an inhibitor of HIV protease
- Inhibit a particular liver enzyme

### LEAD COMPOUND DISCOVERY

- Molecular structure inhibits CYP3A4
- Reduced the adverse effects
- Improved the efficacy of PI's and HAART

#### MOLECULAR MODIFICATION

- 2 active ingredients in Kaletra
- Lopinavir and ritonavir
- Lopinavir is an inhibitor of the HIV-1 protease
- Ritonavir inhibits the CYP3A-mediated metabolism of lopinavir

$$\begin{array}{c|c} H_3C & CH_3 \\ \hline \\ HN & N \\ \hline \\ OH & H \\ \hline \\ OH & H_3C \\ \hline \end{array}$$

#### MOLECULAR MODIFICATION

- Lopinavir
- molecular formula is C37H48N4O5
- molecular weight is 628.80
- Ritonavir
- molecular formula is C37H48N6O5S2
- molecular weight is 720.95

#### MOLECULAR MODIFICATION

- white to light tan powder
- freely soluble in methanol and ethanol
- rinsoluble in water
- **HOW IT WORK?**
- http://www.kaletra.com/consumer\_kaletra\_difference.cfm#

#### FORMULATION DEVELOPMENT

#### Two strengths:

#### 1)Yellow tablets

- Copovidone
- sorbitan monolaurate
- colloidal silicon dioxide
- sodium stearyl fumarate

#### FORMULATION DEVELOPMENT

#### 2)Pale yellow tablets

- Copovidone
- sorbitan monolaurate
- colloidal silicon dioxide
- sodium stearyl fumarate

#### SAFETY TESTS AND HUMAN TRIALS

- Several human trials
- A randomized, double-blind, multicenter trial
- mean age of 38 years old
- **₹**57% were Caucasian
- **₹80%** were male

#### SAFETY TESTS AND HUMAN TRIALS

- different tests were conducted
- with antiretroviral therapy of different age groups
- different body conditions and so on
- These tests were approved

#### APPROVAL FOR MARKETING

- Sold as Aluvia in some parts of the world
- Manufactured by Abbott Laboratories
- \*U.S. Food and Drug Administration (FDA)
- In both adults and children
- In 2000
