

**CCC Heep Woh College**  
**Form 7 Chemistry**  
**Life-Wide Learning Review Worksheet**

**Name: Cheng Hoi Wah ( 4 )**

**Class: 7S**

**Date of Life-Wide Learning Day: 06-10-2010**

**Place of Visit: Hong Kong Jockey Club Drug InfoCentre**

After visiting the Hong Kong Jockey Club Drug InfoCentre, I learnt how to identify the common drugs with different sizes, colors and composition. More importantly, throughout the activities, I knew much more about the specific adverse effects brought by abuse of several drugs and the feedback of the drug-abusers. At the end of the visit, we were invited to listen a pre-drug-abuser's sharing. She, who had been taking drugs for 7years, urged us to be wise before taking any decision, if not, it can make us regret for the whole life. All in all, the life-wide learning events, though it was short, was meaningful. It, not only gave us a chance to have better understanding of the knowledge we learn in Chemistry, but also provide us an intensely interesting message about life.
