

Life wide learning report

7SLamkityan12, 7SLamyinkwai13

Beyond doubt, drug abuse is a serious problem in our society and it is the time now for us to have prompt action to mitigate this problem.

Visiting the Drug Centre is our first step for the sake of fighting against the drug abuse. Through acquiring more knowledge about the causes of drug abuse and the prevention methods in the exhibition of the centre and the sharing of past drug abusers, we can learn more in depth drug related information, such as the adverse effect towards health and social life. Thus, we will have higher incentive to say no to drugs and promote this message to friends and family members.

To conclude, the visit to Hong Kong Jockey Club Drug Info Centre is thought-provoking, interesting and highly recommendable. It is suitable for residents in all age range to learn more about drug abuse issue in society.
