

**Tang Tsz Ching 7S (21)**

**Life-Wide Learning Day  
Reflection**

We have visited the Hong Kong Jockey Club Drug Info Centre where is a very cyber and creative drug education centre. What impressed me a lot is the video about 3 youngsters and drugs showing in the interactive theatre. We can take part in discussions and have the opportunity to vote to decide character's decision.

Moreover, the sharing by a rehabilitated drug abuser impressed me most. She shared her whole "drug journey" and her feelings with us. I appreciate her bravo and personality very much so I hope more present drug abusers can be moved by her and get back on the right trail of life.
