CHAN HO FEI

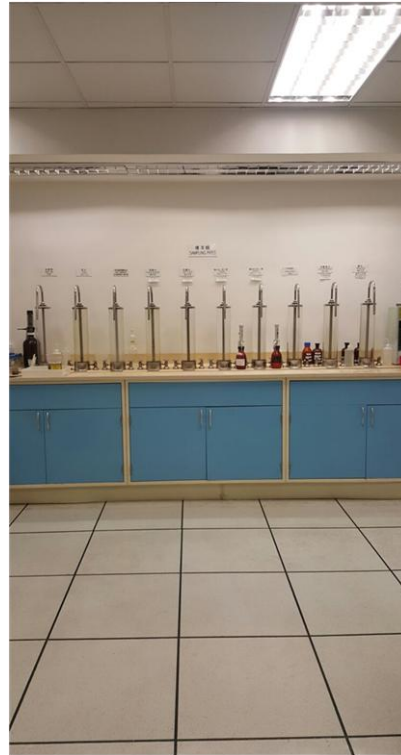

There is the MA On Shan Water Treatment Work. And the picture is show the description of the water treatment .There are picture on it and make it easier to read.

CHAN LAI YING

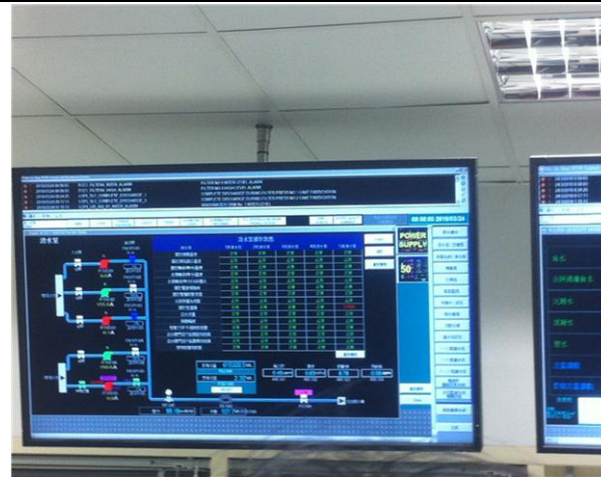

I go to Sha Tin Water Treatment Works on Life-wide learning day.This photo is talking about how the water treatment run and show the steps about the water treatment.

CHAU LUNG CHU

This is the sampling pipes which show different water samples like oxygenated water. There are also some solution below the pipes

HUI CHI HIN

The object which is shown on the picture can maintain and check all the machines, as well as controlling them

HUI KUK HEI

This is a model of Ma An Shan Water Treatment's composition. It's so beautiful!

LAU HO YEUNG

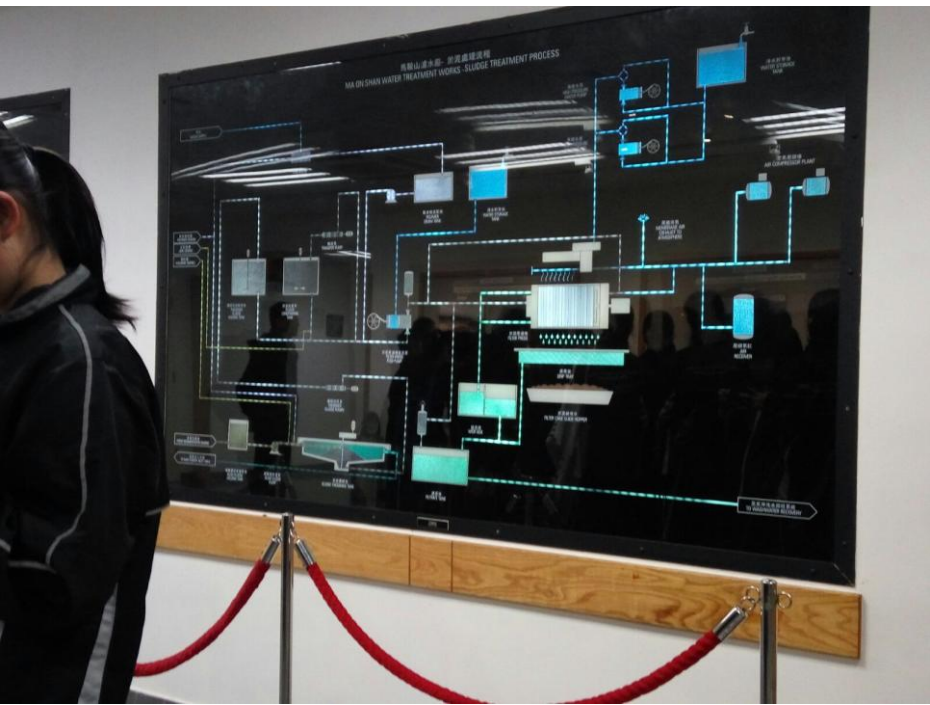

The water was filtering the impurity by high pressure air. Then the water level was upper when the impurity emerge. The impurity will go through by the tunnel.

LEUNG HO KAN

This is the machine that make the dirt to the dirt cakes, it will make the soft dirt change to a piece of dirt cakes.

NG TUNG YAN

This picture show us the sludge treatment process.

PUN KAI HEI

This is a model of Ma On Shan Water Treatment Plant .Although there is not very big but there are about 6 to 7 floors. Also there is a great environment.

SO YEE LAM

This photo shows the process of how the water treatment works as a filter to make dirty water become clean and for our daily usage.

WONG YUEN CHUNG

I learnt how the water station operation. Although it was rain, I also visited happily!

YANG SIK KWAN

This is a model of the WSD Ma On Shan Water Treatment Plant.
